EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a correspondence by Emily H. Lumpkin on April 14, 2005.

The application has been amended as follows:

Cancel Claims 1-9 and 11

Claim 10, line 11, following "aperture", insert- -, and wherein said coupling assembly includes a T-shaped cylindrical collar, an elongated externally threaded shaft, and a plurality of internally threaded fasteners for engaging said elongated externally threaded shaft for holding each of said bowl members in position- -

Claim 12, line 1: replace "11" with - -10- -

2. The following is an examiner's statement of reasons for allowance: the closest art of record is considered the Wind Accents Kinetic Sculptures reference. This reference discloses the general inventive concept as that of the Applicant's. However, it is not possible to discern the coupling mechanism used to attach the bowls to the post mechanism. The Miller, US 4,030,451 reference teaches the use of a T-shaped cylindrical collar with a threaded shaft. However, Miller does not disclose a plurality of internally threaded fasteners for engaging the externally threaded shaft. Miller only discloses a single internal threaded shaft thereby not meeting the limitation of a plurality. Further, one would have to use the Applicant's specification as a template to use the singular threaded connection and the T-shaped collar as disclosed by Miller in conjunction with

the Wind Accents device. It can be seen that the Miller reference teaches the use of a set screw (54) to maintain the cover in place whereas the claim limitation states that it is the threaded shaft and internally threaded fasteners which maintain each of the bowl members in position.

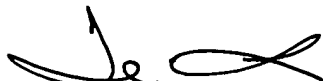

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimberly S. Smith whose telephone number is 571-272-6909. The examiner can normally be reached on Monday thru Friday 10:00-4:00.
